# DAVID SEKULIC

## FULLSTACK DEVELOPER

An enthusiastic and driven individual with a passion for web development and a strong desire to learn and grow in the field. Seeking an entry-level opportunity that will challenge me and help me grow as a developer.

## PROJECTS

### MovieReview - Angular / Laravel

A movie review website using Angular and Laravel. The website features browsing movies, the ability to leave reviews, and a state management pattern using the NGXS library for front-end data persistence. User authentication was implemented using the jwt-auth library for Laravel.

### Zay Store - Angular/Firebase, JS / Laravel

A fashion retail store website using both Angular and Firebase as well as JavaScript and Laravel. This project helped me learn about different technologies and how to integrate them.

### Fantasy Store - JS / Laravel

Full-featured online store website for a fictional company selling a wide range of products. The website includes all CRUD operations, user authentication, shopping cart, admin panel, and other functionalities.

## EDUCATION

### ICT College of Vocational Studies

Belgrade 2018 - 2023

#### Professional Bachelor in Electrical and Computer Engineering

Developed extensive understanding of both frontend and backend web development principles. Currently working on final project before graduation.

### High School "Nikola Tesla"

Belgrade 2014 - 2018

#### Computer technician

Acquired strong programming fundamentals through writing algorithms in C programming language.

## SKILLS

### Languages

HTML, XML, CSS, JavaScript, TypeScript, PHP, C/C++

### Frameworks & Libraries

Angular, Laravel, RxJS, JQuery, Bootstrap

### Databases

SQL, MySQL

### Software & Tools

Git, NPM, Adobe Photoshop, Figma
